FinTech & Shadow Banking in China 2019 Conference

Aspects of China's traditional banking sector may be somewhat underdeveloped compared to those in other developed markets, but the nation is emerging as the world's FinTech market leader.

EY - The rise of FinTech in China - EY - China

Ultimately, this systemic shift offers China a regulatory and market reform opportunity with profound consequences for the country and the developing world. Indeed, the Internet Finance Guidelines released in July 2015 indicate that the country is creating both a financial market infrastructure and a regulatory framework that is built with financial technology (FinTech) in mind.

FinTech in China:from the shadows? - IDEAS/RePEc

Since 2009, China's shadow banking industry has expanded its activities via P2P lending channels, as seen in how within just a few years, FinTech has allowed a trillion-dollar and decade-old industry

to emerge at the beginning of the second decade of the 21st century.

Shadow Banking in China

China's Internet finance industry has boomed in recent years. The country leads the world when it comes to total users and market size; financial-technology (or fintech) start-ups are mushrooming, as are company valuations; capital markets are aggressively pursuing the Internet finance industry; and consumer behavior is altering dramatically.
